Dear Participant:

On behalf of The Leukemia & Lymphoma Society (LLS), thank you for registering for the upcoming free telephone/web education program, Non-Hodgkin Lymphoma – Know Your Subtype, with featured speaker James Armitage, MD. We are pleased you will join us for this program, supported by Bristol-Myers Squibb and Genentech.

Participate by selecting one of two convenient ways:
Telephone: Call toll-free (877) 407-9708 15 minutes prior to the start time.
Computer: Log into www.cancereducation.com/NHLST 15 minutes prior to the start time.

Included in this packet you will find:

1. Program Agenda
2. Dr. James Armitage Biography
3. Program Evaluation: or online at www.LLS.org/tweval
4. Pamphlet: Know Your NHL Subtype
5. Flyer: Online Chats and Information Specialists
6. Flyer: Web Education Videos and Nutrition/ LLS Community
7. Flyer: Telephone/Web Education Programs and Co-Pay Assistance
8. Flyer: Publications in English and Spanish
9. Brochure: Here to Help

Presentation slides will be available the day of the program by visiting www.LLS.org/programs.

If you need additional program packets, please call toll-free (855) 676-7723. To download or order free educational materials, visit www.LLS.org/booklets. To access materials in Spanish, please visit www.LLS.org/materiales.

For more information about this or other programs and services offered by LLS, please call an LLS Information Specialist toll-free at (800) 955-4572. Information Specialists are master’s level oncology professionals who are available to assist you.

We look forward to your participation in this program and thank you for joining us.

Sincerely,

Lizette Figueroa-Rivera, MA
Director, Education & Support
The Leukemia & Lymphoma Society
Non-Hodgkin Lymphoma – Know Your Subtype

Wednesday, May 24, 2017
12:00 PM to 1:00 PM Eastern Time
11:00 AM to 12:00 PM Central Time
10:00 AM to 11:00 AM Mountain Time
9:00 AM to 10:00 AM Pacific Time

Dr. James O. Armitage, a graduate of the University of Nebraska Medical Center, completed his internship and residency in internal medicine at Nebraska, a fellowship in hematology oncology at the University of Iowa and a brief stint in private practice in Omaha. He developed and directed the Bone Marrow Transplant program at the University of Iowa, and later at the University of Nebraska. At Nebraska, he served as Vice-Chair of Internal Medicine, Chief of the Section of Oncology and Hematology, Chair of the Department of Internal Medicine, and Dean of the College of Medicine. He currently is The Joe Shapiro Professor of Medicine at the University of Nebraska Medical Center. Dr. Armitage is board certified in internal medicine, medical oncology, and hematology, and a Fellow of both the American and Royal College of Physicians, of the American Society of Clinical Oncology (ASCO), and of the American Association for the Advancement of Sciences. He has served on many national/international oncology committees including the United States National Cancer Advisory Board and the French National Cancer Advisory Board. He is past president of both the American Society of Clinical Oncology and the American Society of Blood and Marrow Transplantation.

He has received numerous honors including the Claude Jacquillat Award for achievement in Clinical Oncology from Paris, the San Salvatore Foundation Research Award from Lugano, Switzerland, the Richard and Hinda Rosenthal Foundation Award from the American Association of Cancer Research, the Heath Memorial Award from the University of Texas MD Anderson Cancer Center, the Robert A. Kyle Award from the Mayo Clinic, and election to the Association of American Physicians. Dr. Armitage has published more than 600 papers, written 110 chapters and is co-editor of 27 books. He edits the ASCO Post and is the deputy editor of the Journal of Oncology Practice. He and his wife, Nancy, have four children and ten grandchildren.

Know Your NHL Subtype

Did you know that being informed about lymphoma gives you some control and may help you cope? Do you know what type of lymphoma you have (your subtype)? Start becoming informed today.

Some NHL Subtypes

To get more information about your diagnosis and treatment, and to find an expanded list of NHL subtypes, please see the free LLS publication Non-Hodgkin Lymphoma or go online at www.lls.org/resourcecenter.

<table>
<thead>
<tr>
<th>Slow-growing subtypes of NHL</th>
<th>Fast-growing subtypes of NHL</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Follicular</strong></td>
<td><strong>Diffuse Large B-Cell (DLBC)</strong></td>
</tr>
<tr>
<td>Second most frequent subtype; abnormal lymphoma cells are grouped together throughout the lymph node.</td>
<td>The most common NHL subtype; disease can be in lymph nodes or outside the lymph nodes.</td>
</tr>
<tr>
<td><strong>Mucosa-Associated Lymphoid Tissue (MALT)</strong></td>
<td><strong>Mantle Cell</strong></td>
</tr>
<tr>
<td>Affects sites outside of the lymph nodes; patients may have been infected with <em>H. pylori</em>.</td>
<td>Usually starts in a lymphocyte in the mantle zone of a lymph node; is often widespread at diagnosis.</td>
</tr>
<tr>
<td><strong>Small Lymphocytic (SLL)</strong></td>
<td><strong>Burkitt</strong></td>
</tr>
<tr>
<td>Involves lymph nodes or lymphatic tissue; may also involve blood and marrow.</td>
<td>Usually appears as abdominal masses of lymphoma cells; can also involve marrow, blood and other organs.</td>
</tr>
<tr>
<td><strong>Waldenström Macroglobulinemia</strong></td>
<td><strong>Anaplastic Large Cell</strong></td>
</tr>
<tr>
<td>Usually diagnosed by a marrow examination; most commonly involves blood and marrow but can affect the lymph nodes, liver or spleen as well as other organs.</td>
<td>Can start in lymph nodes and spread to the skin; can also begin in the skin.</td>
</tr>
<tr>
<td><strong>Cutaneous T-Cell (CTCL)</strong></td>
<td><strong>Peripheral T-Cell (PTCL)</strong></td>
</tr>
<tr>
<td>Mainly involves the skin and lymph nodes; starts in a T cell.</td>
<td>Has many subtypes; usually involves lymph nodes in different areas of the body.</td>
</tr>
</tbody>
</table>

NHL can affect B lymphocytes, T lymphocytes or NK cells.

A lymphocyte is a type of white blood cell that is an important part of the body’s immune system.

NHL generally develops in the lymph nodes or in lymphatic tissue (for example in the stomach or intestines). In some cases, NHL involves the marrow and the blood.

Some types of lymphoma are curable. Other types can be kept under control with treatment.

The two most common NHL subtypes affect B lymphocytes: diffuse large B-cell lymphoma and follicular lymphoma.

There are more than 500,000 NHL survivors in the U.S. (all subtypes combined). It is the 7th most common type of cancer.
The Leukemia & Lymphoma Society Online Chats are free, live sessions, moderated by oncology social workers. The moderators help to guide discussions as well as provide resources, information, and support.

The chats provide a forum for those impacted by cancer to share experiences and offer mutual support.

To register for one of the chats below, or for more information, please visit www.LLS.org/chat.
(Note: A laptop or desktop computer is needed to participate. The chat platform cannot support tablets or smartphones.)

The Leukemia & Lymphoma Society’s (LLS) Information Specialists provide patients, families and healthcare professionals with the latest information on leukemia, lymphoma and myeloma. Our team consists of master’s level social workers, nurses and health educators who are available by phone Monday through Friday, 9 am to 9 pm (ET), or by emailing infocenter@LLS.org.

For a complete directory of our patient services programs, contact us at 800.955.4572 or www.LLS.org
(Callers may request a language interpreter.)
FREE WEB EDUCATION VIDEOS

The Leukemia & Lymphoma Society (LLS) invites patients, caregivers and healthcare providers to view free education videos on disease and treatment, survivorship and other topics.

Visit www.LLS.org/educationvideos to view patient videos.
Visit www.LLS.org/professionaled to view professional videos.
Closed captioning is available for some of the videos.

For additional information on treatment options, education programs and services offered by LLS, please call an LLS Information Specialist today toll-free at (800) 955-4572 or infocenter@LLS.org.
Patients and caregivers may receive free one-on-one phone and email consultations with a Nutrition Educator. Please contact our Information Resource Center, 1-800-955-4572 or at infocenter@LLS.org to receive a free consult.

NEW RESOURCE!

LLS Community is an interactive, online patient and caregiver social network and registry designed to accelerate change and amplify the collective voice of those living with a blood cancer.

How can LLS Community help?

GET SUPPORT
Connect with others who have been through it. LLS Community is a place to talk with other people affected by blood cancers.

GET INFORMED
Get access to valuable information, education, and resources. The information on LLS Community is accurate, up-to-date and from a trusted source.

MAKE AN IMPACT
Too often, traditional research has excluded the patient’s voice, the voice that matters most. LLS Community relies on patient experiences and insights to drive program development and research studies that address the needs and real-world challenges of patients living with blood cancer.

Visit www.LLS.org/community to learn more!
Upcoming 2017 Telephone/Web Programs

Multiple Myeloma- Including Updates from ASCO (American Society of Clinical Oncology)
Speaker: Ajai Chari, MD of Icahn School of Medicine at Mt. Sinai in New York, NY
Date: June 22nd
Time: 11am - 12:30pm ET

Living with Chronic Lymphocytic Leukemia
Speaker: Danielle Brander, MD of Duke Cancer Center in Durham, NC
Date: July 12th
Time: 1pm - 2:30pm ET

Education Programs
- Information for Patients with Chronic Lymphocytic Leukemia
- Mantle Cell Lymphoma: Update on Treatment
- Adult Acute Lymphoblastic Leukemia (ALL): Update on Diagnosis and Treatment
- AML: Update on Diagnosis and Treatment
- Strategies for Treating AML
- Living with Chronic Myeloid Leukemia
- MDS: Diagnosis and Treatment Update
- Update on Hodgkin Lymphoma

Programs in Spanish
- Pediatric ALL: Update on Treatment and Follow-up Care
- Questions to Ask to Make Informed Treatment Decisions

For more programs in Spanish, visit: www.LLS.org/programas

Contact an LLS Information Specialist at (800) 955-4572 or infocenter@LLS.org

CHECK OUT
the following videos, plus more, at www.LLS.org/educationvideos:
Advances in Blood Cancers: Living with CLL
Advances in Blood Cancers: Making NHL & CLL Treatment Decisions
Advances in Blood Cancers: NHL Treatment and Survivorship

Survivorship in Young Adults: Acute Lymphoblastic Leukemia (ALL)
Co-Pay Assistance Program

If you need help paying for your treatment co-pays and other insurance-related expenses, you may be eligible for assistance from The Leukemia & Lymphoma Society (LLS).

The eligibility requirements for the LLS Co-Pay Assistance Program include:

- A confirmed blood cancer diagnosis that is covered by the LLS Co-Pay Assistance Program
- Prescription drug insurance coverage
- United States citizenship or permanent residency in the U.S. or Puerto Rico
- A household income that is at or below 500 percent of the U.S. Federal Poverty Level as adjusted by the Cost of Living Index (COLI).

For complete details on LLS Co-Pay program eligibility requirements, visit www.LLS.org/copay or call 877.557.2672.

Patients, caregivers, pharmacies and healthcare providers can submit co-pay applications at www.LLS.org/copay.

Programa de asistencia para copagos

Si usted necesita ayuda para pagar los copagos de su tratamiento y otros gastos relacionados con el seguro médico, es posible que cumpla los requisitos para recibir asistencia por parte de La Sociedad de Lucha contra la Leucemia y el Linfoma (LLS, por sus siglas en inglés).

Los requisitos para el Programa de Asistencia para Copagos incluyen:

- Un diagnóstico confirmado de cáncer de la sangre que esté cubierto por el Programa de Asistencia para Copagos de LLS.
- Cobertura de su plan de seguro médico para medicamentos recetados.
- Ciudadanía de los Estados Unidos o residencia permanente en Puerto Rico.
- Un ingreso familiar que sea igual a, o menor que el 500 por ciento del nivel federal de pobreza en los Estados Unidos, ajustado por el Índice de Costo de Vida (COLI, por sus siglas en inglés).

Para obtener detalles completos de los requisitos necesarios para el Programa de Asistencia para Copagos, visite www.LLS.org/copagos o llame al 877.557.2672.

Comuníquese con un especialista en información de LLS al 800.955.4572 o visite www.LLS.org/espanol para recibir información sobre otros programas y servicios de LLS.
