

# Tomorrow's Therapies Today:

## *Clinical Trials for* **Leukemia, Lymphoma & Myeloma**

**Mitchell R. Smith, MD, PhD**  
*Director, Lymphoma Service  
Fox Chase Cancer Center  
Philadelphia, Pennsylvania*

Dr. Smith is the Director of the Lymphoma Service at Fox Chase Cancer Center in Philadelphia, PA. After receiving his medical degree and a doctorate in pathology from Case Western Reserve University in Ohio, Dr. Smith was awarded a fellowship in medical oncology from Memorial Sloan-Kettering Cancer Center in New York City.

He is a member of several professional societies, including the American Society of Clinical Oncology, the American Society of Hematology and the American Association for Cancer Research. He received a lifetime achievement award from *The Leukemia & Lymphoma Society* (LLS) in 2003. He has been awarded more than a dozen research grants from private and public sources, including the LLS and the National Institutes of Health.

His research interests include leukemia, myeloma, and non-Hodgkin lymphoma – mantle cell lymphoma in particular. He has authored more than 100 research articles, scientific abstracts, and book chapters. He was a member of the editorial board for the *Journal of Clinical Oncology* and has served as a manuscript reviewer for numerous medical journals, including the *American Journal of Hematology, Blood* and *Cancer*.
